

Marina Committee meeting minutes

Date: Feb, 19, 2018

Meeting started at 6:45pm. In attendance, Mike Scott, Bob Densic, Jerry Staczek

Items discussed:

- 1) Obtaining cleats for the floating dock spaces. The boaters currently have no place to secure their lines without damaging the docks.
- 2) Finances and Dock rentals. Dock rentals have decreased and costs have increased, resulting in a negative effect on the bottom line.
- 3) Discussed the need for facilities at the Marina/Vets Park area. Mr. Staczek believes that having facilities for boaters and visitors is necessary if the marina is to remain competitive. Mr. Scott expressed concern as to the return on investing in such facilities.
- 4) Discussed the pump out wagon. Mr. Staczek, in discussion with another marina operator, has found nothing prohibiting our continued use of the pump-out trailer.
- 5) Mr. Densic asked for further review of marina opening and closing dates.

Meeting ended 7:15pm

Next meeting is this Wednesday, 6:30pm Council chambers.

Regards,

Jerry Staczek

Marina Committee Chairman
