Re: Marina Committee Meeting, 3/7/18

In Attendance: Greg Marquette, Bob Densic, Jerry Staczek, Mike Scott

Discussed:

- 1) Marina rates will remain the same this season.
- 2) Cleats will be installed on the floating docks to assist with proper mooring.
- 3) The committee is looking at ways to further reduce costs. Our highest cost is associated with security. (approx. \$60k+ a season). The committee is exploring reducing the amount of day shift coverage, Monday thru Thursday at the marina. Mr. Scott wants to meet with the Union representing the guards for input.
- 4) Mr. Densic wants to create a facility tracking sheet to better help in addressing maintenance issues.
- 5) Discussed removing the last dock on the east wall, near the north wall, and moving the barge closer to the north wall. This would create an area along the east wall for the placement of jet ski docks.

Meeting ended 6:45pm

Respectfully submitted,

Jerry Staczek, Chairman
