

Marina Committee meeting November 7, 2018, @ 2pm.

Present: Mr. Marquette, Mr. Densic, Mr. Staczek, Jessica Benson, Linda Amos, & the O'Brian group representatives.

The O'Brian group presented the Marina Committee with some very preliminary ideas regarding master planning. The main discussion highlighted the need to view the Marina and river areas more prominently with regards to any future development efforts.

The discussion also focused on:

- 1) Creating a River walkway connecting Rossford marina to Hollywood casino.
- 2) Creating 'passive' & 'active' park areas.
- 3) Discussed acquiring the area known at the 'glass hill' and 'tank area' for development. Including restaurants and ball diamonds. Other possible business and entertainment use for that area was also discussed.
- 4) Also discussed possible entrance areas to the glass hill that afforded access to the area without intruding on surrounding neighborhoods.
- 5) Discussed the need for portraying the marina and Downtown area as multiple destination stops.
- 6) Heard information regarding how millennials chose where to live, especially what amenities they seek in a community when determining to live there.

Meeting ended 3pm.

Regards,

Jerry Staczek
