PRESENTATION

Pamela Butler, Wood County Health Commissioner made a presentation to council concerning the role of the health department. She said the department maintains over 101 programs with its 59 employees including programs such as the WIC (Women with Infant Children), prenatal clinic, and adult clinics. She said the H1N1 virus will be a Public Health emergency and that in the event of large outbreak that her department will be the lead agency. She suggested the city send a representative to the Pandemic committee meetings. She gave council literature describing the ten essential services they provide, a program and services guide, environmental program and services guide, nursing program and services guide, and a description of public health and the function of local health departments. Mr. Richards asked if there is a report available that describes services provided to individual community. Mrs. Butler said she will get that to him. Mr. Oberdorf said he admires her passion and asked what % have adverse reactions to the flu shot. She said very few have an adverse reaction. Mr. Hermes asked if they handle private pools that have been abandoned. She said yes and said to call the health department who will assign a sanitarian to investigate the complaint and determine what needs to be done. She said they typically drain the pool and sometimes fill in adding any cost as a tax lien. Mr. Hermes asked where he could find status of individual properties and was told it is not on website but to contact the assigned sanitarian for the status. Mr. Michaels asked how many people they vaccinated last year and was told 1500 mostly children. He also asked how many units of the H1N1 vaccine they will get and was told initially 25% of 25% of the population. Mrs. Eckel asked with the lower number of units how will it be determined who receives. Mrs. Butler said it will be given based on tiered risk. Mrs. Woods said we have a terrific health commissioner who is hard-working and we should be pleased to have her.

COMMITTEE REPORTS

Judiciary committee report from today was presented verbally by Mr. Marquette. He said the committee had met just prior to this regular council meeting and discussed the city insurance. Three different plans were presented to the committee, one by Becky Swisher representing the Ohio Plan/Hylant-Mclean and two by Bob Beglin who presented the Argonaut and PEP plans both through Wells Fargo. The Ohio Plan had a premium of \$74,523 annually, the Argonaut plan was at \$59,255, and the PEP plan was \$53,702. After discussing the positive and negatives of each plan the committee recommends the Argonaut plan due to the PEP plan leaving the city liable for any claims incurred before but not made before leaving the plan. Mr. Marquette said this rate will be locked in for three years unless the city valuation changes.

Marina committee report of July 28, 2009 was presented by Mr. Michaels. (see written report attached). Mrs. Eckel asked if marina guards at the end of the season will still be abbreviated and how many docks were filled. Mr. Michaels said the guard coverage will still be abbreviated unless voluntary contributions pay for an extension and that 170 of 230 docks were filled. Mr. Richards asked if we have docks for visitors and was told by Mr. Michaels yes based on a daily fee structure. Mr. Ciecka said that fee is dependent on the size of the boat.

Mr. Richards moved and Mr. Oberdorf seconded the motion to accept the committee reports as given. All ayes. Motion carried.

REPORT OF MAYOR AND/OR ADMINISTRATOR

Mayor Verbosky reminded of the Labor Day weekend Hometown Celebration which will include a boat parade, Fun at the Fountain, and fireworks. He said the RBA and Downtown Revitalization committee had met on August 11th and he appreciated their efforts. He told council that the planning commission met on August 12th and that an ordinance regarding wind turbines will be presented to council shortly. Mr. Oberdorf asked how this related to the presentation made several years ago regarding wind turbines and Mayor Verbosky said the ordinance will related to smaller wind turbines intended for consumers which appear to have some merit. The mayor informed council that the next meeting of the RBA is scheduled for August 26th and that a new business directory will be available. He has received a letter of resignation from David Weaks of the Civil Service Commission. He is encouraged that we had more applicants for the Design Review committee than available openings.

Mr. Ciecka said he has been conducting an online survey regarding the street light choices and that option B is so far the overwhelming choice generating 50 votes versus 4 for option A and 15 for option C. He would input from council before selecting the pole and color scheme. Mayor Verbosky said city really wants input from the community. Mr. Hermes would like to know the actual light output and was told by Mr. Ciecka that all three choices meet the light standards within a two pole difference and that all the options are within the cost budget. Mr. Marquette asked if it was possible for the current poles to be retrofitted with new fixtures and Mr. Ciecka said he is working on that and did get a price from First Energy for purchasing the existing poles. Mr. Richards said he prefers option B but wants to know if it will light four traffic lanes and sidewalks. Mr. Ciecka said the designers will provide a photometric plan. Mr. Michaels said the foot candles and lumens are a factor of the pole height and light wattage. Mrs. Eckel suggested that the website and display indicate that each pole will have two light fixtures not one as shown in example. Mr. Ciecka said that black is the overwhelming color choice. Mr. Hermes said if option B is the overwhelming choice that is what we should go with. Mr. Ciecka said he entered two resolutions on the agenda at the last moment that need to be passed tonight.

Mr. Richards asked what the status was on the records request made by three individuals in the last month as he is concerned about complying with state law in view of the fact they contacted individual council members. Mayor Verbosky said all requests are being handled through Mr. Heban. Mr. Ciecka said we have complied with all requests. Mr. Richards asked if we can recover time costs and was told no, we can only charge .05 cents per copy.
